EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Jeffrey S. Schubert on 5-11-05.

The application has been amended as follows: in claim 6, the phrase "*loop circuit of claim 5,*" has been changed to *--loop circuit of claim 1,--*.

2. The following is an examiner's statement of reasons for allowance: Applicant has amended claims to incorporate an allowable feature indicated in the previous Office Action. Specifically, none of the prior art of record teaches or suggests, among other things, the limitation "*a pulse generator, coupled with the multi-phase oscillator to combine, via OR gate logic, pulses generated in response to a transition of a phase of the more than one phases of the oscillator signal to generate a loop clock signal*" as required by claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
